Tru-Test™
DATAMARS

Farm Network Gateway

Connect to your herd's heat and health data.

A key component of the Tru-Test Active Tag solution, the Farm Network Gateway sends information from the Active Tag to Datamars Livestock Live, giving you timely and reliable heat and health data and alerts.

Active Tag supports farmers looking to maximise herd performance. The solution is ideal for indoor or pasture-based dairy operations, delivering world-class precision in heat detection and health alerts to maximise breeding activities and animal health.

- ✓ **Retrieves data from your animals regularly and reliably.**
- ✓ **Ensures timely animal health and heat alerts.**
- ✓ **Virtually maintenance free.**
- ✓ **Powerful network can support any farm layout and size.**
- ✓ **Quick and easy to configure and install.**
